

LIKO-S INDUSTRY

**STAINLESS STEEL FABRICATION
FOR CUSTOMERS WITH
THE MOST RIGOROUS STANDARDS**

01

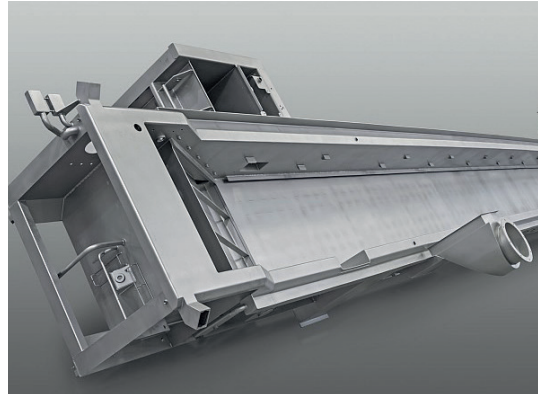

PRODUCTS

Our metalwork satisfies the needs of an entire range of industrial sectors.

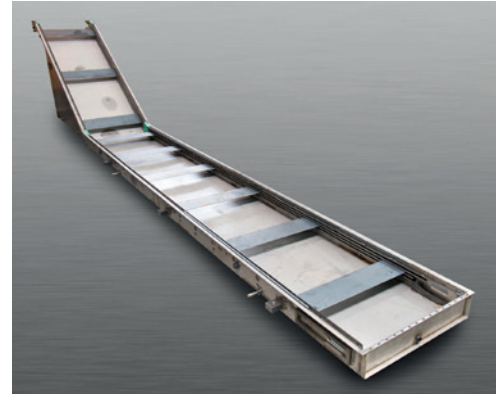

Our strong technical team will handle all of your requirements from different industries and our specialists in workshop will produce it in the best quality.

POWER INDUSTRY

FOOD INDUSTRY

PROCESSING INDUSTRY

NUCLEAR RESEARCH

PHARMACEUTICAL

WATER TREATMENT

WASTE DISPOSAL

PAPERWORK

02 TECHNOLOGY

WELDING

Capacity 43 welders, which is more than 6 800 welding hours per month.
Welding technology - TIG + MAG.

CNC LASER

Burning of stainless steel to a thickness of 6 mm, steel to thickness of 12 mm, fiber technology suitable for burning thin metal plates, work desk 4 m x 2 m.

WATER JET

Cutting up to a thickness of 200 mm,
45° 3D tilting head,
3 m x 2 m work desk.

CNC BENDING MACHINE

Displacement of 320 tonnes,
maximum bending length
4 metres, option to bend up
to a thickness of 12 mm

CNC LATHE

Orbital diameter above base: 820 mm, orbital
diameter above transverse support: 530 mm,
distance of points: 3,000 mm, maximum
workpiece weight: 2,500 kg.

CNC MILLING MACHINE

Vertical machining centre, work
range: X = 1,270 mm,
Y = 610 mm, Z = 720 mm,
maximum desk load: 1,200 kg.

CNC ROLLING MACHINE

Number of cylinders 4, maximum
bending length 2,500 mm, minimum
bending diameter 130 mm, maximum
bending diameter 2,500 mm, maximum
metal plate thickness 10 mm.

GLASS BLASTING CHAMBER

Chamber dimensions 15 m x 6m,
blasting medium Balotina at a fraction
of 100-150 mic,
resulting surface roughness Ra 1.4.

03

CERTIFICATIONS

WE ARE EXPERTS.

Our production fulfils the demanding requirements for welding – we are certified in accordance with:

CSN EN ISO 14001-2016
CSN EN ISO 9001-2016
EN 1090-2
CSN EN 15085-2
CSN EN ISO 3834-2
PED Certification
